Overview

Many lawyers would have been doctors if they had been interested in or talented with science. Forensics is where science runs headlong into the legal process. This seminar will introduce lawyers to the sciences that we often encounter in our more complex cases. Fingerprints and blood spatter experts are State go-to experts. We will have training on what these specialized knowledges can disclose and what their limitations are. We will learn what is available on the web to assist us and what our clients may leave on the web as evidence we have to be prepared for. Computers, cell towers, arson, false confessions, crime scene and collision reconstruction, brain scans and more will be introduced during this two-day seminar. And yes, we will cover DNA! The changes in this field are rapid and significant. Two hour-long plenary sessions will bring us up-to-date and encourage us about the possibilities that are being developed.

Location

The seminar is being held at the DoubleTree by Hilton, 611 NW Loop 41, San Antonio, TX 78216. You must mention the TCDLA room block to get the discounted rate of \$117, S/D with a cutoff date of 9/18/2024 or until filled, whichever occurs first. Call 888.728.3031 to make reservations. In the event you need to cancel, attendees are responsible for canceling with the hotel. TCDLA will not pay no-show fees.
